Packers in 38-0 Victory Over Stars

By JOE MOOSHIL
Associated Press Sports Writer
CHICAGO (AP) — The Green Bay Packers contend they weren't out for revenge when they manhandled the College All-Stars 38-0 Friday, but their victory might prove to be a costly one.

Donny Anderson, the Texas Tech halfback who received \$600,000 to sign with the Packers was limping in the All-Star dressing room after the game.

Anderson, who started out as a flanker back, suffered the injury the first time he carried the ball as a running back.

The Packers, who were defeated 20-17 by the All-Stars in 1963, were up for this game although Coach Vince Lombardi discounted any thoughts of revenge.

"Revenge? I don't believe in the word," said Lombardi. "I can't remember as far back as 1963, but the boys were really

up for this one."

Fullback Jim Grabowski of Illinois, who got nearly \$300,000 for signing with the Packers, called the All-Star performance a little embarrassing.

"I sure wish we had gone a little better than we did," said Grabowski. "It got a little embarrassing out there. But I'm sure glad I'm going to the Packers. They're a real good team."

Head Coach John Sauer of the All-Stars couldn't hide his disappointment, but he dismissed all notions that the Packers were trying to run up a score to avenge their 1963 loss.

"Vince isn't that kind of a guy, and I know he wouldn't do anything like that," Sauer said. "Green Bay is a good team, and they had all the psychology going for them. I can't cry about our loss. We knew we had weaknesses, and we tried to cover them up the best way we could."

"There are certain things you need in a game like this, and we didn't have them. You just can't go out and get other players. Our pass protection fell apart, and we didn't expect that, because it had stood up in practice."

Santo Bats Chicago to 4 to 3 Win

By RON RAPOPORT
Associated Press Sports Writer
They're throwing at Ron Santo's head again, but his bat keeps getting in the way.

The Cub third baseman was out of the lineup for 10 days earlier this season with a fractured cheekbone, courtesy of an errant pitch by Jack Fisher of the Mets. Friday, Bob Bolin of the Giants took a couple of shots at them. They didn't go any good, though. Santo hit two home runs and a two-run single in the 10th that gave Chicago a 4-3 victory.

Santo's first homer came off Bolin in the second inning and when Ron appeared at the plate again in the third he suddenly found himself studying the chalk around the batters' box close. Eventually, Bolin struck Happy with that result. Bolin tried it again when Santo led off the bottom of the ninth with San Francisco leading 2-1. But he climbed out of the dirt and hit his 25th homer of the season, sending the game into overtime.

In other National League games, Cincinnati beat Pittsburgh, 4-3. St. Louis beat New York 7-1. Atlanta crushed Philadelphia 9-2 and Los Angeles bounced Houston 12-1.

In the American League, New York split two with Cleveland, losing 5-4 and winning 3-0. Kansas City took Minnesota 4-2. Detroit shut out Boston 2-0. Washington beat Baltimore 4-2 and Chicago beat California 3-1.

By the time Santo came up in the 10th, Bolin had given way to Frank Linzy but the Giants had gone ahead 3-2 on Tito Fuentes' homer in the top of the inning. The Cubs loaded the bases, though, and with one out Ron cracked the single that won it.

The Giants are now one percentage point behind the league-leading Pirates, who bowed to Gordy Coleman's tie-breaking home run in the sixth inning. The victory was the Reds' sixth in a row, 11th of their last 12 and 16th of their last 19.

The Cards clubbed three homers off the Mets, the most productive being Tim McCarver's three-run shot in the ninth. Julian Javier had one with a man on, and Tito Francona contributed a solo blast. Rookie southpaw Steve Carlton won his first major-league game, holding the Mets to six hits.

The Braves came up with five runs in the ninth inning in snapping the Phillies' winning streak at seven games. Joe Torre and Denis Menke hit homers in the ninth after the Phils had come from two runs back in the sixth. Torre's homer was his 27th of the season.

Sandy Koufax became the major leagues' first 18-game winner as Los Angeles jumped on Houston early and often.

There are 56 words in the Lord's Prayer.

4th Loss in Row for the Travelers

LITTLE ROCK (AP)—A record 11,018 fans turned out to watch league-leading Arkansas beat Thursday night, but the Travelers fell 4-2 to Albuquerque for their fourth straight loss.

Arkansas held on to its four-game lead over Amarillo, however, as the Sonics fell to Austin 6-4. Dallas-Fort Worth beat El Paso 2-1 in the other Texas League baseball match. Albuquerque, pushing its string of victories over Arkansas to seven, also handed hurler Wayne Granger his first loss of the year. He has seven victories.

Albuquerque is the only team in the league with a season edge over the Travelers.

A special bank night crowd watched Arkansas take a second-inning lead on Larry Stubbins' solo homer. But the Dodgers tied it up in the fourth on two walks and a single.

In the sixth, Joe Patterson singled, stole second and scored on singles by Mark Zeller and Floyd Wicker.

Jim Fairley's 10th homer of the year for Albuquerque tied it up 2-2 in the seventh inning.

The winning runs came in the eighth on a single, a double and an error by Zeller, the Arkansas catcher.

Clay Taunts His British Challenger

LONDON (AP) — Champion Cassius Clay taunted Britain's challenger, Brian London, today on the eve of their world heavyweight championship fight Saturday night.

"Put your wife and children in the ringside," the 24-year-old champ from Louisville advised the 32-year-old English challenger. "Remember that you're fighting for them. Then, if you hit the champ and he don't fall, run."

The modest London, who like Clay has finished training for the scheduled 15-round fight, retorted: "I don't take much notice of what Clay says."

"It's going to be a tough, hard fight. I feel fit. I have everything to gain and nothing to lose. My ambition is to make as much money for my wife and children as I can. I am always a trier."

London, noted for strength rather than finesse, said he aims for a knockout. He admits he's unlikely to outpoint the fleet-footed champion.

"I'm going to have a good

POL. ADV. PAID FOR BY THE TURN THE RASCALS OUT COMMITTEE, C.C. CONRAD, CHAIRMAN

THE SCARE CAMPAIGN IS ON

Beware of the last minute scare and pressure that is being put on by the local administration groups that have profited directly or indirectly from the present state administration.

They would have you believe that all Federal Aid will be completely cut off from the state if Jim Johnson is elected Governor.

They will tell you that the Southwest Water District (Milwood Dam Water Project) will not be available to us here in Hope if we elect Jim Johnson Governor.

They will tell you that the only man that can get this Federal money for this project is their candidate - the administration candidate.

How great is he that can do all these things! And they say Jim Johnson cannot? Whose money is it? Did not you and I send it to Washington in the form of tax money? Who allocated it out - their administration candidate - the President - or the United States Congress?

Come now - let's look at it as it really is. We have elected men in Congress to represent us and to see that we get a fair deal on anything that will boost the economy of our part of the country.

Help elect Jim Johnson our Governor and he will not let us down. He will go all out to help us with the Southwest Water District, the proposed paper mills and on any other project that would be beneficial to our progress and happiness. Don't be misled by nonsense from those that want to hang on.

Sincerely,
U. G. GARRETT

Bob Thomas at the Movies

By MICHAEL SHORT
HOLLYWOOD (AP) — He reminds some observers of Harold Lloyd. He reminds his producer of Buddy Rogers.

Those who see him in the roaring twenties spoof "Thoroughly Modern Millie" (they'll have to look beyond Julie Andrews, Mary Tyler Moore, Carol Channing and Beatrice Lillie) may be reminded of almost anyone except the actor himself and the parts he has played.

James Fox probably has been seen by more moviegoers who can't recall his name than any other young leading man in Hollywood.

Versatility may be the reason his professional reputation outstrips his box office appeal. He was named most promising actor of the year by the Variety Club of Great Britain after playing an effete, upper-class Englishman victimized by his butler in Joseph Losey's prestigious "The Servant." From there he went on to play a pilot in "Those Magnificent Men in Their Flying Machines" and a prisoner of war in "King Rat."

After another serious role in "The Chase" Fox turned to farce in "Millie," which will be finished next month. As a bespectacled playboy Fox sings, teaches a frenetic dance called the Taploca, and scales a building in a scene reminiscent of a classic Harold Lloyd comedy from the 1920s.

Fox's name means little to the public, much to producers. Why?

"There's a kind of gap all over the world for my type," Fox said. The type is the young leading man with polish, a type not seen much since Leslie Howard's and Ronald Colman's day.

Fox is tall, blond, slender and what a writer might call sensitive-featured. He speaks with the clarity, precision and style of an Englishman brought up conventionally and sent to Harrow, which he is.

But did they ever think that having a TAPE-pal is so much more interesting and not too expensive because tapes can be erased and used over and over?

You can actually hear the per-

HELEN HELP US!

— by Helen Bottel —

YOUTH ASKED FOR IT!

This column is for young people their problems and pleasures, their troubles and fun. As with the rest of Helen Help US, it welcomes laughs but won't dodge a serious question with a brush-off.

Send your teenage questions to Helen Help US!, this newspaper.

MY MOTHER, THE HOARDER

Dear Helen: All three of us kids love our Mom but we wish we could cure her of saving everything.

We have three bedrooms and two are completely full of junk. She saves every newspaper, all the old clothes from years back, magazines; you can look in there and find stuff dating back to 1930 and before. It's piled clear to the ceiling; my brother has to make a path through the room to his bed.

We can't throw one can full of trash away unless she sifts through it. She's afraid some important papers are in there, or something valuable, even if there is nothing but cigarette butts and garbage.

We all try to clean house, but it is just hopeless. To throw away anything, we have to make sure she is gone, and then take it to our neighbor's trash can.

Our house almost bursts with clutter and it gets worse by the day. I have a 23-year-old sister who wants to fix up the house, but how can she when we can't even get to the floor or walls because of junk? HELP!! — Hopeless.

Dear Hopeless: Compulsive hoarders need expert help. They can perhaps be cured by psychiatry.

Problem is: Making your mother realize she's got a problem. The combined efforts of the whole family may do the trick. Hope so! — H.

Dear Helen: Many times you have articles giving addresses where people may acquire pen pals.

But did they ever think that having a TAPE-pal is so much more interesting and not too expensive because tapes can be erased and used over and over?

You can actually hear the per-

son corresponding with you and it brings him or her so much closer.

Why not tell your readers to pin this address up and save it? GLOBAL TAPE RECORDING EXCHANGE, Box 336, Wayne, New Jersey, 07470.

Dear Helen: All that "Almost Convinced" should do about the Ouija board believers is to ask the board how it gets its information, and if it lies.

Mine confessed to lying. — Ouija Board Owner

Dear Helen: We asked our Ouija board what was making it work and it answered "The Devil." So I gave it away. — Unbeliever But Not Taking Chances

Dear Helen: Ouija boards work just as table tapping works: by subconscious hypnosis. When two or more people concentrate on making a board or table move, they bring pressure to it with their hands simply because they are thinking so hard. And once the thing starts to move, it's awfully easy to subconsciously make it go where the strongest one wants it to go.

I'm not saying there's a "joker" in the crowd, because even the strongest one doesn't realize he's the "force." Really, group hypnosis is the only explanation . . . Or ESP? — Rational

Dear Helen: I am a boy of 14 and my life is miserable. My grades are very poor. The more my parents get after me the worse they get, though I try hard. They take away all my privileges, like TV, movies, etc., and now they have stopped my singing lessons so I can concentrate on studying this summer. The only thing I ever wanted to do was sing, and I do have talent for it.

My parents say if I don't buckle down I'll become a hood. How could I? I don't have one friend. I don't get along with my folks, I'm not close to my brothers. I am alone it's unbelievable. Is there any hope? — B.S.R.

Dear B: There's hope, if your parents recognize the danger signals. You don't need a tutor as much as you need an understanding adult friend who can persuade them a few sessions at the Child Guidance Clinic might change your life. — H.

This column is dedicated to family living, as if you're having kid trouble or just plain trouble let Helen Help YOU. She will also welcome your own amusing experiences. Address Helen Bottel in care of Hope Star.

O'Neill's Foundation Active One

By WILLIAM GLOVER
AP Drama Writer
WATERFORD, Conn. (AP) — Down in the sunken garden, an intent group hears about the intricate business side of artistic endeavor.

Upstairs, downstairs in the big house, and out back in a field, multiple rehearsals are in session.

Phase I of the Eugene O'Neill Memorial Theater Foundation is in full swing, the second annual National Playwrights Conference that continues through Aug. 6.

Writing, however, is only part of ultimate purpose.

Novel in concept, the project aspires to an important, broad part in national cultural growth.

"The American theater in certain ways is still back in the buggywhip era," declares George C. White III, who runs the foundation. "We aim to be a catalyst."

The kind of enthusiasm, native and professional, which has been aroused is typified by veteran actor Fanchot Tone, one of the participating players.

"The great moments in life are when you are pioneering something like this," Tone says.

Involved in the conference are 19 writers who have yet to savor the rewards of Broadway or major repertory exhibit; plus producers, directors, designers, business experts and actors.

The program includes full-scale productions of two new works and staged readings of a dozen others, all by participating playwrights.

Although the conference this year focuses on advice and criticism for novice authors, White envisions the center as multipurpose, flexible and far-reaching.

"We want this to be a place where anyone in any branch of the theater can come with an idea and try it without jeopardy," he declares.

White, 31, is a native son who studied at Yale, ventured into show business through the television activities of Talent Associates, formed a music company, and then got the notion for a theatrical foundation, upon which he has concentrated exclusively for the past 18 months.

Supported primarily thus far by private contributions and bank loans, the venture aims to start soon a \$350,000 campaign for "seed purposes" and hopes eventually for a \$10-million endowment to provide such adjuncts as a school of theatrical crafts; library; museum and publishing unit.

Attaching the name of O'Neill to the venture — with his widow's permission — seemed natural. Waterford faces Long Island Sound next to New London, the town where the Nobel Prize dramatist spent summers as a teen-ager.

The situation, however, is not without Irish irony. O'Neill

made no secret of his enmity for the rich neighbors who sniffed down their Yankee noses at his family's humble origins, and told stories about them in his plays.

Now the memorial foundation occupies 8½ acres of the vast former Hammond estate, just a swanky mile up the road from the old O'Neill residence. The property some years ago became a township park.

White's enthusiasm has proved contagious in the neighborhood. Among those who have helped get old buildings into condition and otherwise served are college professors, industrial engineers and cadets from the nearby U.S. Coast Guard Academy.

Next year, the local Boy Scouts are to shovel the earthen rampsarts for a medieval-style theater, one of half a dozen small playhouses which figure on foundation plans as aids to experimentation.

The main theater is to be a 600- to 1,000-seat structure, designed by David Hays and John Johansen.

The Atlantic entrance to the Panama Canal is west of the Pacific entrance.

THE TENSE BEGINNING of one of screenland's greatest, longest, bloodiest, rough-and-tumble bruising brawl, is shown above from Paramount's "Shane." Filmed in Technicolor, "Shane" stars Alan Ladd, Van Heflin, Jean Arthur and Brandon De Wilde.

Richard Harris, standing, challenges Kirk Douglas (back to camera) to join his ski saboteurs in a desperate mission, in this scene from Anthony Mann's "THE HEROES of Telemark," spectacular new Columbia Pictures release in Panavision and Columbia color. The film also stars Ulla Jacobsson and Michael Redgrave and features David Weston and Anton Diffring.

HEAR THESE WORDS

Worship In Church Every Week

HAVE
FAITH
IN
GOD

DISCORDS

O H, how important they are! No music would be sweet without them. No life can mean much until it first suffers them.

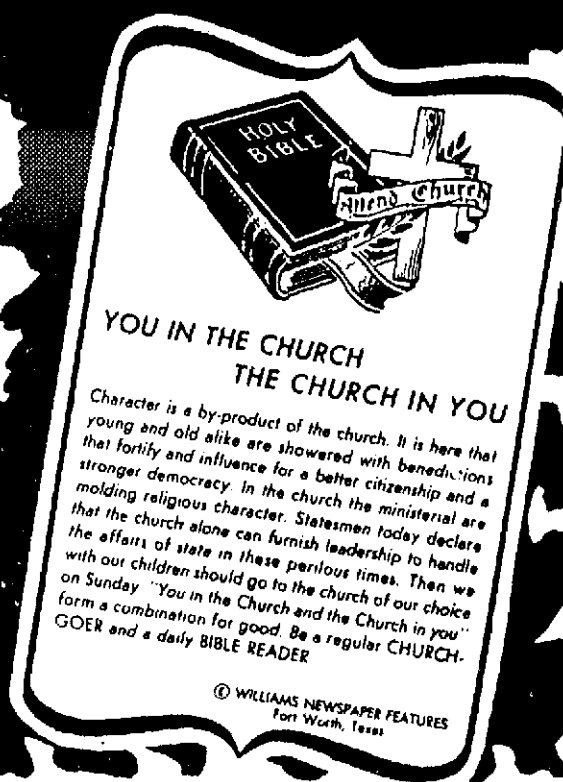

It takes discords to prove the true beauty of the finer harmonies.

Without discords we have stagnation...no opportunity for comparison.

One must see them, concords and discords, alongside each other if one is to have the full picture. Compare the selfish with the unselfish; the cactus with the rose; the christian life with the life of the wayward. Compare the touch of the beginner with that of the concert pianist.

Ah, there it is. Now you understand. God put His church right in the middle of all this and furnished it with a pew and an altar where men might pray.

He offers His grace to sustain us in our darkest hour— when discords disrupt and darkness dulls our way. *The doors of His church are ajar and He invites all men; even men of disrepute— men who still question His authority. Won't you come to church?*

Beatles Off U.S. Radio Stations
By EDDY GILMORE
LONDON (AP) — The American producer of the Beatles movie said today the banning of Beatle records by U.S. radio stations will have no effect on his plans to star the mophead musicians again.

"I know all of the boys well," said Walter Shenson. "I also know them as not irreverent and not irreligious. But I also know them to be honest unto themselves."

A number of American radio stations banned the quartet's records after Beatle John Lennon, 25, was quoted as saying: "Christianity will go. It will vanish and shrink. We're more popular than Jesus now. Jesus was thick and ordinary."

Shenson, a native of San Francisco who lives in London, said he will make the third Beatle film in London in January. The Beatles are scheduled to open a U.S. tour in Chicago Aug. 12.

Maureen Cleave of the London Evening Standard first published Lennon's comment on March 4. It was ignored until an American magazine picked it up for its September issue.

Dozens of radio stations throughout the United States are banning records by the Beatles because of Lennon's remark.

A disc jockey in Birmingham, Ala., heart of the South's "Bible Belt," sparked the drive by publicly announcing that his radio station was no longer playing the Beatles, who grew wealthy as the music idols of the young set in recent years.

Other stations followed suit Wednesday, removing Beatle records from their programs and stripping their libraries of Beatle platters. Some, however, reported they would continue to play the British group's music despite the furor.

Several radio stations scheduled bonfires for the burning of Beatle records and pictures.

YOUR DENTAL HEALTH
Immediate Dentures in One Smooth, Painless Operation
By WILLIAM LAWRENCE, D.D.S.
Newspaper Enterprise Assn.

Mrs. M never quite got over the shock of sudden death of her well-known author husband. Feeling alone in the world, and filled with grief, she completely neglected herself physically and mentally. She had little desire to live and no desire to adjust to her new situation.

The spark of life was gone. She lost 81 pounds. She looked awful. Her teeth were a mess. They rotted away, beyond repair, some of them merely stumps.

She says she often thought of taking care of her teeth and getting them repaired, but she "just couldn't face up to it."

What finally happened to Mrs. M? Her dramatic weight loss worried her physician. He insisted on dental rehabilitation so that his patient would be able to chew solid food. With persistent efforts

he got her to agree to dental consultation. After much consideration, Mrs. M had all her teeth out, or what was left of them, and full dentures made.

What's so remarkable about that? IT WAS DONE IN ONE OPERATION by a method generally referred to as "Immediate Denture Technique."

About two weeks before hospitalization, impressions of upper and lower teeth and jaws were taken and reproductions of them were cast in stone. These upper and lower stone models were then mounted on an instrument that duplicated natural positions and movements of patient's jaw.

Teeth were then cut from the stone models, and as each tooth was removed, an artificial one was put in its place. On completion upper and lower artificial teeth

WIN AT BRIDGE

Drop or Double Finesse Better?

By Oswald & James Jacoby
Newspaper Enterprise Assn.

Sometimes bridge players argue about success. South studied dummy for about ten minutes before playing the first card from dummy. Then he won the trick in his own hand and played out dummy's ace and king of clubs. When both opponents followed to the second club South conceded a club trick and claimed his contract.

North remarked, "Your play worked, but as a matter of strict mathematics you should have won the spade in dummy and taken a double diamond finesse. Unless West held both king and queen of diamonds that play would have worked. There is a 76 per cent chance of finding one of two honors in the East hand. There is only a 68 per cent chance of breaking the clubs 3-2."

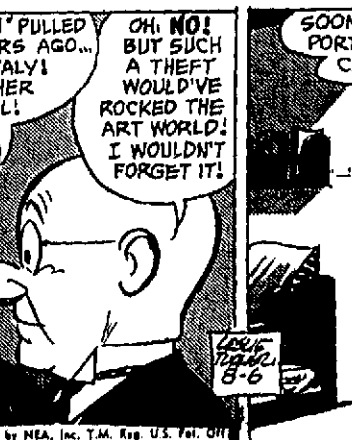

South replied, "The actual chance of success with the club play was 71 per cent. I don't play in a vacuum and would have abandoned clubs had they broken 5-0 but you overlook the fact that my club play gave me a considerable extra chance. Suppose East showed out on the second club. I would go after diamonds and have a 24 per cent chance of making my contract. East could hold both diamond honors. Or West might show out on the second club. Then I would still have a 52 per cent chance of suc-

cess because I would make the hand if honors divided. North and South have appealed to us for an opinion and our answer is that as a matter of strict mathematics South's line of play is superior. His combination play works out to better than 80 per cent. Nevertheless we would almost surely have attacked diamonds because we would reason that West would surely have opened a diamond if he held both the king and queen.

PRESERVE PRIDE, PROGRESS AND PROSPERITY

Vital, Factual Information to Every Hempstead County Citizen

The Southwest Arkansas Water District handling the sale and distribution of water from Millwood Dam to the Nekoosa Edwards paper mill at Ashdown, municipal water for Foreman and possibly Texarkana, on the west side of the river, and the Champion Paper Company, in McNab-Fulton area, municipal water to Hope, Lewisville, Magnolia and other cities on the east side of the river, have made an application to the Economic Development Administration for a grant of \$4,800,000.00 and loan of \$4,800,000.00 with an interest rate of 3.75 per cent.

There have been meetings and a good deal of hours and thousands of dollars spent in perfecting this application because it will permit reduction in the cost of water to not only the paper mills but also the cities involved of approximately 50 per cent over the cost of the same water financed through the sale of revenue bonds.

This means that it can make the difference in the expansion of the Nekoosa Edwards mill and the location and expansion of a paper mill at the Fulton-McNab area. Furthermore, it would certainly make the difference between the feasibility of the purchase of municipal water for all of the towns involved.

In other words, the outcome of this loan and grant can put the area of Little River County and Hempstead County, with the other counties in the Water District, in the most favorable position for not only the anticipated use of the water, but the future use and sale of the water.

The status of the loan and grant at this time is, according to our understanding, that it has been approved by the Economic Development Administration and is now in the office of the Secretary of Commerce.

Loans and grants of such a large amount requires the approval of the Secretary of Commerce. As only \$14,000,000.00 is allocated each month in the entire 50 states of the United States, our application for \$9,600,000.— represents about 70 per cent of the total amount of money allocated to the entire United States in one month.

Naturally the White House will be very cautious as to whether they approve or disapprove this high percentage of a total months grant under the Economic Development Administration program.

The members of our congressional delegation, headed by Senator John L. McClellan, are doing all they can to push through approval of this loan and grant at the earliest possible date.

Since Nekoosa Edwards' plant in Little River County is progressing at a rapid rate and bids are scheduled to be let on the water district's distribution system on the west side of the river by November 1st, it is imperative that the water district know the source of its money for financing not only this part of the distribution system but the entire water distribution system.

If this loan and grant is not approved by the November 1st deadline, then either the Nekoosa Edwards plant will have to delay their construction schedule or revenue bonds will have to be sold for the west side of the river distribution system.

In this event it would probably have to be a new application filed with the Economic Development Administration for the distribution system to the east side of the river and whatever paper mill that was located and built on the Fulton-McNab site. Therefore it is extremely important that this project be approved in its present status for both sides of the river.

The decision for the approval or rejection of this loan and grant by the White House would definitely be affected by the favorable or unfavorable political situation in the state of Arkansas.

Since all of our congressional delegation have been re-elected in the Democratic primaries by overwhelming majorities, and the only seat to be filled is in the Fourth Congressional District, which will be determined by August 9th, leaving only the race for Governor of Arkansas that can materially affect this political atmosphere in the State of Arkansas.

The twenty years of hard work and thousands of dollars spent by individuals and thousands of hours both dedicated to the industrial development in this area due to Millwood water, as well as the Millwood water being made available to municipalities at an attractive price, hangs in the balance today, with the future of this area and the realization of the plans and dreams of thousands of citizens.

A setback at this time would materially affect the outcome of this industrial development. A committee representing the Southwest Arkansas Water District is going to Washington, D.C. to meet with Senator McClellan between August 15th and August 20th.

Senator McClellan will be expected to direct this committee and attempt to get the approval of this loan and grant by the White House. It is a most crucial trip and the foregoing is self-explanatory as to the importance of it.

It is sincerely hoped that this trip will not be condemned to failure before it is made by an unfavorable Political Atmosphere in Arkansas because any excuse that could be used to reject or delay the approval of this loan and grant, with loans and grants being made in other states, could delay our industrial development for years to come.

Don't turn back the clock on 20 years of hard work. We have Millwood Dam. Lets continue to work and develop its industrial waters to the full extent, which will mean hundreds of jobs for Hope, Hempstead County and Southwest Arkansas citizens, and contribute to the future of our own young men and women. Let's preserve our pride, our progress and prosperity.

The foregoing is why, we the Frank Holt for Governor Committee of Hempstead County, believe the choice is clear in the election Tuesday.

In the scheme of things ... it may matter not what happens to Frank Holt. But it matters a LOT what happens to Hope, Hempstead County and Southwest Arkansas.

FRANK HOLT

FOR GOVERNOR

HOOKED BUT GOOD is Miguel Angel. The matador wasn't injured, just embarrassed when the bull's horns became entangled in his belt. Angel scrambled free a moment later and continued the fight.

Neutral Zone Bombed for the 4th Day

By ROBERT TUCKMAN
SAIGON, South Viet Nam (AP) — U.S. B52s bombed the demilitarized zone for the fourth time in a week today, then pounded two North Vietnamese positions close to the Cambodian border.

The bombers struck before dawn at North Vietnamese infiltration routes, supply dumps and gun positions in the buffer zone separating North and South Viet Nam.

In two more raids only 2 1/2 miles apart, other B52s hammered at the Chu Pong Mountain fair of North Vietnamese regulars four miles east of the Cambodian frontier.

The U.S. command said the enemy broke contact with 10,000 men of the U.S. 25th Infantry and 1st Cavalry, Airmobile, Divisions 25 miles southwest of Pleiku City Thursday.

Elsewhere in South Viet Nam, there was only scattered, minor ground action.

In the air war against North Viet Nam, U.S. pilots flew 83 waves of the r-hammered missions Thursday including a raid on the northeast regional military headquarters 24 miles northeast of Haiphong.

Navy pilots from the aircraft carrier Constellation attacked the headquarters complex with rockets and 500- and 1,000-pound bombs. They reported destroying four large buildings and damaging seven others.

The Navy pilots sighted three surface-to-air missiles within 10 miles of Haiphong but all three missed, a U.S. spokesman said. No American planes were reported lost Thursday.

Other targets included nine oil installations. Pilots said they damaged or destroyed 59 barges, 38 storage buildings, nine bridges and 20 trucks.

North Viet Nam noted the second anniversary today of the first American air attack on it with a vow to defeat "U.S. aggression" and to drive the Americans deeper into an "endless tunnel." The declaration in the North Vietnamese Communist party newspaper Nhan Dan was broadcast by Radio Hanoi to mark the raid by U.S. planes on North Vietnamese naval installations Aug. 5, 1964, after clashes between Communist PT boats and U.S. destroyers in the Gulf of Tonkin.

In South Viet Nam, U.S. pilots reported destroying or damaging 607 enemy huts, 21 bunkers, and 20 sampans in a total of 455 sorties Thursday. South Vietnamese fighters added 260 more single-plane strikes.

Spain Bans British Flights
LONDON (AP) — Spain, which is trying to get Gibraltar back from Britain, has banned all flights of British military planes through Spanish airspace.

New Satellite to Study Radiation

BASE, Calif. (AP)—A satellite intended to study radiation belts today was in a polar orbit ranging from 220 miles to 2,776 miles from earth.

The satellite was launched into orbit by a Scout rocket Thursday from this West Coast missile center.

Terror Is a 2-Way Ticket

By HORST FAAS
AP Photographer
MOC HOA, South Viet Nam (AP) — When the 60 raiders pulled out, the village smoldered in ruins and 40 water buffalo lay dead or dying in pools of blood.

"Someone has to do the dirty work," said an officer. The devastation had been wrought by South Viet Nam's "skull and crossbone" commandos whose shoulder patch is the pirate flag and who repay Communist terrorism with kidnapping, assassination and scorched-earth tactics.

Created earlier this year, the force now numbers about 2,500 South Vietnamese. Most provinces have several 12-man commando teams to be used any way the province chiefs want to use them.

Like the Communists, they specialize in terror. They often kill rather than take prisoners. If they trap a Viet Cong tax collector, they may kill all except one.

"One must tell the story," a commando explained. "We must spread terror. By spreading terror, we hope to counter terror."

This was their avowed purpose when they destroyed Can Den, a tiny village separated from Cambodia by a 20-foot canal in the Plain of Reeds west of Saigon. A captured Viet Cong dentist had told interrogators the area contained a primitive jungle medical school and a weapons factory.

The villagers had to pay the price of collaboration. When the 60 raiders leaped from their helicopters, they quickly found the school and weapons center, which included a huge, hot charcoal stove to melt metal for hand grenades.

Most of the villagers ran off into Cambodia, but the commandos caught two girls near the weapons factory. The commando chief ordered them executed "as an example to all those who help the Viet Cong." But the commander of the village's regional force unit claimed his men had captured the girls first and insisted that they be spared. They were eventually put on a helicopter for questioning in the province capital.

"The commandos should operate alone, not with us," said the regional forces captain. "The things they do are not what we do. They are unconventional. Better they do it alone."

The raiders went into every corner of the village and found a few women huddled in huts with their children. They poked rifles at the women demanding information on the whereabouts of the village men.

Every fowl and animal in sight was killed.

United Steel Winner in Price Hike

By JOSEPH R. COYNE
WASHINGTON (AP) — A united steel industry appeared to have emerged the victor today in a war of nerves to raise prices on some of its products in the face of White House pressure to hold the price line.

The \$2-and \$3-per-ton increases in the price of steel sheet and strip — the kind used in automobiles and other consumer goods — were called modest and inconsequential by the industry but denounced by the Johnson administration as irresponsible and inflationary.

Through Thursday night, however, 11 companies — including the giants of the industry — had announced price increases effective next Wednesday on about 30 per cent of their output.

The Washington Post reported that Johnson definitely has decided to let the steel price hike stand. The Post said that the President, without anger or emotion, decided there was nothing he could do to force a price roll back.

If the increases stick, as now appears likely, it will mark the second major economic defeat for the Johnson administration within a week.

Only last weekend, striking airline machinists overwhelmingly rejected a contract agreement worked out under White House auspices which called for a 6 to 7 per cent increase in wages and other benefits, well beyond the administration's 3.2 per cent wage-price guidelines.

Those same guidelines call for relative price stability. President Johnson withheld direct comment on the steel price increases which snowballed Thursday with announcements by eight companies. Three others had announced hikes earlier, beginning with Inland Steel on Tuesday night.

Bill D. Moyers, White House press secretary, said the President felt the public interest had been violated by the price decisions. He said it was the President's view that the effect of the price increases won't be visible immediately but will show up in time.

Moyers declined to say what further action, if any, might be taken and added: "No one can force them to do what they do not want to do."

President John F. Kennedy forced a rollback in steel price increases in 1962 through moves which included a shift in Defense Department orders to companies which had held the price line.

U.S. Airmen Quit France in August

WASHINGTON (AP) — The United States will pull out its six Air Force reconnaissance squadrons, now based in France, beginning this month, the Pentagon said today.

A Defense Department announcement said three of the six squadrons will be moved to bases in Britain.

Chinese Turn Technical School to Private Enterprise

By JOHN RODERICK
TOKYO (AP)—Mao Tze-tung has decreed a new revolution in Chinese life which may lead to destruction of all he now stands for.

Mao's latest blueprint for the 720 million people he rules calls for tearing the fabric of everyday Chinese existence. It calls on soldiers to become part-time peasants and small-factory managers, on peasants to become part-time factory hands, on the industrial proletariat to dig gardens and run small farms.

The aim is to produce a new breed of Chinese: The peasant-worker and the worker-peasant, a politically aware, militarily trained individual uniting the cultures of city and countryside.

The Communist chairman's visionary plan appears to have been published at all levels in China a few months ago. Opposition to it has touched off a crisis in Red China's 17-year history, resulting in a purge which has struck down opponents in the army, the party, the government, and in many fields of culture.

The plan was not disclosed internationally until last Tuesday. The purpose, one directive from Mao, 72, said, is to "prevent a restoration of capitalism, to consolidate the dictatorship of the proletariat and guarantee the gradual transition to communism."

Mao's idea, the directive added, is to turn "every field of work into a great revolutionary school, where people take part both in industry and agriculture, in military as well as civilian affairs."

Mao appears to be seeking to eliminate present classes, creating a new one which is neither the classic Communist proletariat nor the peasant class he has so long supported.

That Mao may have created a Frankenstein's monster which will one day turn against him and his theories is apparent from the grave resistance the directives have already encountered. They cut across too many lines, step on too many toes, invade too many personal political, military and cultural domains.

Probably more important than the resistance is the slow alchemy of change Mao is proposing to carry out in the Chinese mind.

When man acquires wider knowledge, he tends to become more, rather than less liberal in his outlook.

Instead of a docile animal content to go about his daily round never defiant of higher authority, Mao and his successors may well find, as the die-hard Stalinists did in the Soviet Union a few years ago, that they must deal with fluid, moving explosive forces.

When that day comes, the masses Mao now seeks to manipulate may engulf and overwhelm him or his successors.

Rockefeller Opens GOP Hope Office

Win Rockefeller arrived in Hope Friday afternoon at 3:30 p.m. and was met at the Hope Airport by a group of local citizens. Accompanying Mr. Rockefeller was Mrs. Rockefeller; Maurice "Footsie" Britt, candidate for Lieutenant Governor; Jerry Thomasson, candidate for attorney general and Jim Atkins, formerly of Hope.

A reception was held at Republican Headquarters, 116 East 3rd Street. The serving table held a lovely arrangement in Mr. Rockefeller's campaign color of green and white.

Hostesses were women from the local chapter of the Hempstead County Republican Women. The guest book was attended by Young Arkansians for Rockefeller: Martha Bader, Susan Clark, and Janet Pruden.

A large group of supporters from the following counties was also present: Sevier, Lafayette, Howard, Miller, Nevada, and Little River counties.

Technical School to Begin Classes Here on Sept. 16

By MARY ANITA LASETER
Star Feature Writer

The Red River Vocational-Technical School, on State Highway 29 a quarter mile south of Hope, is a welcome addition to education in Southwest Arkansas. The facility is operated by the State Board for Vocational Education to help meet the need for field and industrial technicians in the economic development of Arkansas.

J. W. Rowe is the director of the school, and Jim Pickren of Lewisville has been named assistant director. Dick Moore is the business manager. The capable faculty and the subjects taught are: Tommy Beasley, diesel and heavy truck mechanics (2 year course);

Matt McCauley, forestry one-year course; Jim Stroud, welding one-year course; Fred Fuller, heavy equipment operation, five-month course;

Mrs. Alvin Huckabee and Miss Daisy Lee of Bradley, office practices, one-year course; Gene Dillard, machine shop and plant maintenance mechanics, two-year course;

Mrs. Hazel Underwood, practical nursing, one-year course; Regular classes in all subjects will begin September 26. However, the first class in heavy equipment operation was begun April 18 and will graduate eight men on September 9. This class and others also are making use

of temporary arrangements until permanent construction is completed. Complete facilities consisting of the very latest in equipment and teaching aids will be available in each department. New equipment will be added to keep up-to-date in each area. A fine example of this will be found in the office practices course which will include instruction in bookkeeping, typing, shorthand, business English and communication, business math, business psychology, transcription, office practice, and office machines.

Similar well-rounded instruction will be offered in all the subjects, and the school is open to people from all parts of the state who are over 16 years of age, who have the aptitude, and who are interested in the occupation taught. A General Aptitude Test Employment Security Division Office in Arkansas.

The school works closely with the ESD offices throughout the state in placing graduates on the job. Employment is usually readily available for graduates, and the school has information concerning part-time jobs for students who are interested.

When classes get underway next month, four buses will run daily. Routes will originate in town in a 50-mile radius of Hope depending upon the number of students requesting transportation. A charge of one cent per mile each way is made for bus transportation. The school will also make every effort to find suitable living quarters in the Hope area at reasonable rates.

Several local concerns have made available a total of 14 scholarships to the school. These are for \$60 a year and are most worthwhile, since the students enrolled in this school are all sparked with the desire to learn. Individual or organizations seeking an outlet for surplus funds in their possession would do well to look into the prospect of establishing more of these scholarships.

At the present time applications are being taken for students in all the classes at the Red River Vocational-Technical School. Further information may be obtained by writing to the school or to J. W. Rowe, director.

U.S. Housing Loan Set Up for Hope

The Department of Housing & Urban Development has just announced approval of a loan of an additional \$205,179 to the City of Hope for use in a public housing project, according to a telegram The Star has received from Congressman Jim Trimble.

The over-all project, costing more than one million dollars, will provide for 140 low-rent homes, 66 to be designed for the elderly, the telegram said.

Only Two States Have Gun Laws

Most states have no laws against the purchase of rifles or shotguns despite growing pressure for stiffer regulations, an Associated Press survey shows.

Of 40 states checked, only two — New Jersey and Rhode Island — require a prospective purchaser to obtain a rifle permit. New Jersey requires a person to apply to local police for a \$2 lifetime identification card. The police then investigate the applicant's background and fingerprint him before issuing the card.

Maine and West Virginia laws stipulate that gun dealers report to police any person buying a rifle or shotgun.

Virginia, alone of the states reporting, has no gun-control law. Connecticut State Police say that the sale and purchase of rifles in their state is "pretty much unregulated." And in Texas, where Charles J. Whitman shot and killed 12 persons and an unborn baby from a 27-story tower with high-powered rifles, there is no law against carrying rifles, carbines and shotguns.

Of the states canvassed, 20 require permits for pistols. New York, which has one of the strictest state laws, requires that a prospective purchaser of a pistol be a resident of or principally employed in the state.

After investigations by the local police and in state mental hygiene files, the person must be photographed and fingerprinted. The fingerprints are checked with the FBI and the State Department of Correction, if all this is approved, the person must obtain a permit from a judge of any court of record who can turn down an application with out appeal.

In New Jersey, a prospective buyer must apply to his county judge for a permit that is renewable annually.

Violence in Chicago; 28 Are Injured

CHICAGO (AP) — Racial violence wracked a tidy all-white neighborhood Friday for the second time this week and Dr. Martin Luther King Jr., who was felled by a rock, said the eruption was fostered by the worst hate he has ever seen.

King promised the marchers would return to the area. More than 6,000 frenzied white residents of the Southwest Side Chicago Lawn neighborhood rioted during and after a march by 800 civil rights demonstrators.

The civil rights group is demanding open housing. The Chicago Lawn residents say they had built up the neighborhood and that Negroes would degrade a 19-year-old white youth was wounded in the shoulder by a knife thrown towards King during the march. The youth was released after hospital treatment.

Police arrested 39 white persons, including 3 women. Hospitalized 28 persons were brought in with injuries.

"It hurts, but it's not an injury," King shouted above the cursing, screaming, jeering mob in Marquette Park after he fell to one knee when a rock hit his head.

"I have to do this — to expose myself — to bring this hate into the open," King shouted to newsmen. "I have never seen such hate — not in Mississippi or Alabama — as I see here in King, chairman of the Southern Christian Leadership Conference, got to his feet, ripped off his tie and began forming the demonstrators into a line for the march.

King, who spends two or three days a week in Chicago working on a campaign to eliminate slums, said after the march: "We shall have to keep coming back until we are safe from harassment. Until Negroes can move into the neighborhood the tenets of freedom will continue to decay."

Murray Loses 13th Bid in Tenn. Vote

NASHVILLE, Tenn. (AP) — A small-town businessman claimed victory Friday night over Rep. Tom Murray, D-Tenn., chairman of the House Post Office Committee who sought nomination to a 13th term in Thursday's primary election.

Ray Blanton, a member of the legislature, led Murray by 392 votes with 9 of 311 precincts in the state's 7th District uncounted. Four of the delayed boxes were from Blanton's home county.

"From all indications it looks like I won the race," said Blanton, a vigorous campaigner.

Murray, who did not campaign, said from Washington he would not concede until the returns were made official Monday.

As returns from the Tennessee Democratic senatorial primary continued to trickle in, Gov. Frank G. Clement's margin of victory over Sen. Ross Bass, D-Tenn., increased to 11,000.

Bass withheld his concession statement until midday Friday. Clement, who lost to Bass by over 97,000 votes in the 1964 primary, will face Howard H. Baker Jr. in the Nov. 8 general election. Baker, son-in-law of Sen. Everett Dirksen, R-Ill., gained a landslide victory in the Republican primary.

Most of the state's attention in the elections Thursday had been focused on the race for the Democratic nomination for governor.

Buford Ellington, a former governor who resigned as President Johnson's director of the Office of Emergency Planning to seek the nomination, won by 50,000 votes over John J. Hooker Jr., a 35-year-old Nashville lawyer associated with the family of President John F. Kennedy.

Republicans did not field a gubernatorial candidate.

Turn to Religion as Drug Cure

PLANO, Ill. (AP) — Ron's a pie from New York's Spanish Harlem. At 23 he's been to Europe twice and across this country several times. He's been an artist, a playwright, a poet and musician.

"I've always been searching," said, "That's how I got started on a drug habit."

Gordon's a Negro from Chicago's South Side. At 33 he has been in more institutions than an ant.

"One is the federal pit for drug addicts at Lexington, Ky., where he has been at least four times.

In the neighborhood where I grew up, the drug addicts were successful people," he said. "Together with 25 other addicts in a rustic, sprawling se in Plano, a rural community of 4,000 about 70 miles west of Chicago, Ron and Gordon are trying to kick their habit through Jesus."

They've tried other things—hypnotism, medicine, voluntary commitment to institutions—but has helped.
